Canadian Psychology has a mandate to present generalist articles in areas of theory, research, and practice that are potentially of interest to a broad cross-section of psychologists. Manuscripts with direct relevance to the context of Canadian psychology are also appropriate for submission. Original, empirical contributions **may be considered if** the research is of direct relevance to the discipline as a whole (e.g., a survey of psychologists about the future of the discipline).

Canadian Psychology is a journal of the Canadian Psychological Association (CPA) published with grant support from the Social Sciences and Humanities Research Council of Canada (SSHRC).

The opinions expressed are strictly those of the authors and do not necessarily reflect the opinions of the Canadian Psychological Association, its officers, directors, or employees.

Canadian Psychology is published quarterly (February, May, August, November) in one volume per year on behalf of the Canadian Psychological Association by the Educational Publishing Foundation of the American Psychological Association (APA), 750 First Street, NE, Washington, DC 20002-4242. Subscriptions are available on calendar year basis only (January through December). The 2014 rates are as follows: *Individual in Canada*: CDN\$119 + GST/HST. *Nonmember individual*: US\$133 Domestic, \$162 Foreign, \$175 Air Mail. *Institutional (in Canada)*: CDN\$289 + GST/HST. *Institutional (in US)*: US\$360 Domestic, \$409 Foreign, \$424 Air Mail. *APA Member*: \$92. *Student Affiliate*: \$92. Write to EPF/APA Subscriptions Department, 750 First Street, NE, Washington, DC 20002-4242; subscriptions@apa.org. Printed in U.S.A.

Psychologie canadienne a pour mandat de publier des articles d'intérêt général dans le domaine de la théorie, de la recherche et de la pratique, susceptibles d'intéresser un vaste ensemble représentatif de psychologues. La revue publie également des articles qui portent plus précisément sur le domaine de la psychologie au Canada. Les articles inédits sur des recherches empiriques pourraient être publiés si l'étude présentée porte sur la discipline en général (par ex., une enquête auprès des psychologues sur l'avenir de la psychologie).

Psychologie canadienne est une revue de la Société canadienne de psychologie (SCP) publiée avec l'aide financière du Conseil de recherche en sciences humaines du Canada (CRSH).

Les opinions exprimées sont strictement celles des auteurs et ne reflètent pas nécessairement les opinions de la Société canadienne de psychologie, ses représentants, directeurs ou employés.

Psychologie canadienne paraît quatre fois par année (février, mai, août, novembre) et est regroupée en un volume par année. La revue est publiée pour le compte de la Société canadienne de psychologie par l' Educational Publishing Foundation de l' American Psychological Association (APA), 750 First Street, NE, Washington, DC 20002-4242. Abonnements d'un an seulement (de janvier à décembre). Les tarifs de 2014 sont les suivants : *Particulier au Canada* : 119 \$ + TPS / TVH. *Non-membre aux États-Unis* : 133 \$ (local), 162 \$ (étranger), 175 \$ (par avion). *Institution au Canada* : 289 \$ + TPS / TVH. *Institution aux États-Unis* : 360 \$ US (local), 409 \$ (étranger), 424 \$ (par avion). *Membre de l'APA* : 92 \$. *Student Affiliate* : 92 \$. Écrire au EPF/APA Subscriptions Department, 750 First Street, NE, Washington, DC 20002-4242; subscriptions@apa.org. Imprimé aux États-Unis.

New and Enhanced Member Benefit!

- Increased Coverage • Reduced Cost • More Resources

We are pleased to announce that members of Canadian Psychological Association (CPA) can access the most cost effective and comprehensive professional liability and clinic insurance available across the country for Psychological Practitioners.

Members can now purchase coverage online within minutes, by credit card, through the dedicated program website at www.psychology.bmsgroup.com

If you had insurance with McFarlan Rowlands, your policy has been automatically transferred to BMS and you can renew coverage online now. This change does not impact your prior coverage or protection.

Member Benefits:

- Online renewal process and program website
- Lower premiums and more protection for professional liability insurance
- Resources to help manage practice risks based on the psychology profession's claims history
- Specialized legal consultation and protection

For more information about this change, or to purchase coverage, please visit our website at www.psychology.bmsgroup.com

If you have any additional questions or concerns, a BMS program representative can be reached at **1-855-318-6038** or by email at psy.insurance@bmsgroup.com

Take Control of Your Future

Let ASPPB's Mobility Programs give you a helping hand!

ASPPB Credentials Bank: Credentials are primary source verified, electronically stored and ready to use for licensure applications, job applications insurance verifications, etc.

Psychology Licensure Universal System (PLUS): An online system designed to allow individuals to apply for licensure, certification, or registration in any state, province, or territory in the United States or Canada currently participating in the PLUS program.

ASPPB Agreement of Reciprocity (AOR): The AOR is a cooperative agreement whereby any individual holding a license in one AOR participating jurisdiction may obtain a license to practice in another AOR participating jurisdiction.

Interjurisdictional Practice Certificate (IPC): The IPC grants temporary authority to practice based on notification to the licensing board of intention to practice temporarily, and verification of one's qualifications for such practice by ASPPB.

Certificate of Professional Qualification (CPQ): The purpose of the CPQ is to document that the individual holding the certificate has met specific requirements in licensure, education, examination and training and has never had disciplinary actions taken against his or her license. Psychology licensing boards that accept the CPQ have agreed to accept the CPQ holder's educational preparation, supervised experience and examination performance for licensure.

Coming December 2014!

More critical
insights into a
child's cognitive
abilities.

The fifth edition of the most powerful cognitive ability measure is coming December 2014. The WISC[®]-V^{CDN} gives you access to subtests from more cognitive domains so you get a broader view of the child's abilities. New subtests and composite scores are targeted to common childhood referral reasons—and an expanded score analysis approach provides more interpretive power. You get all of the information you need so each child gets the help that he or she needs.

- New measure of visual spatial ability, fluid reasoning, and visual working memory
- New ancillary measures of naming facility and visual-verbal associative memory to measure learning processes known to be important aspects of academic achievement
- Separate visual spatial and fluid reasoning composites
- New ancillary composites for special clinical situations
- Expanded interpretive approach highlights index- and subtest-level strengths and weaknesses analyses
- Web-based scoring and reporting through Q-global™

COMING IN 2015

Digital Administration

WISC will be available in two formats: the traditional pencil-and-paper test and the new digital format on Q-interactive™. Try Q-interactive today with a 30-day free trial! Sign up now at HelloQ.ca to get started.

75th Annual Convention 75^e Congrès annuel

INTRODUCTION TO ABSTRACT ISSUE

The Special Convention Issue of *Canadian Psychology* has been prepared as a permanent record of the 75th Annual Convention of the Canadian Psychological Association, in partnership with the British Columbia Psychological Association, to be held June 5 – 7, 2014 at the Hyatt Regency Vancouver Hotel, Vancouver, British Columbia. The Convention presentations are listed in chronological order. The journal is tabbed in thirds: one each for presentations on Thursday, Friday and Saturday. All papers relevant to a particular presentation are printed together, a summary of a symposium is given, then the papers within are listed “Sy-A,B,C”.

Digital Poster Sessions are grouped by CPA sections, numbered and listed, Session “A” 1 to 3 and Session “B” 1 to 3, etc. Posters for each day will be on display at the time specified in this publication. The subject index is given according to the “word entry” provided by the author. It can be found, together with the author index, at the back of the book.

Traditional Poster Sessions are grouped by CPA sections, numbered and listed, Session “A” 1 to 91 and Session “B” 1 to 114, etc. Posters for each day will be on display at the time specified in this publication. The subject index is given according to the “word entry” provided by the author. It can be found, together with the author index, at the back of the book.

This special issue was organized, produced and edited by the CPA Convention department: Kathy Lachapelle-Pétrin, Convention Manager; Céline McCorkell, Convention Assistant, and the CPA Head Office staff.

PRÉAMBULE AU NUMÉRO DES RÉSUMÉS

Le numéro spécial du congrès de *Psychologie canadienne* a été préparé dans le but d’offrir un compte rendu permanent du 75^e Congrès annuel de la Société canadienne de psychologie, en partenariat avec British Columbia Psychological Association, qui aura lieu du 5 au 7 juin 2014, à l’hôtel Hyatt Regency Vancouver, Vancouver (Columbie Britannique). Les présentations faites au cours du congrès sont inscrites par ordre chronologique. Ce manuel est divisé en trois parties: une pour chacune des journées - jeudi, vendredi et samedi. Tous les exposés se rapportant à une présentation en particulier sont groupés, c’est-à-dire que l’on présente le sommaire d’un symposium, et les exposés s’y rattachant « Sy-A,B,C » suivent.

Les sessions de présentations par affichage numérique sont identifiées, par exemple, « Session A », et est suivie des numéros 1 à 3 et « Session B » suivie des numéros 1 à 3. Les affiches seront exposées chaque jour selon les heures indiquées dans cette publication. L’index par sujets a été établi selon le mot-clef fourni par l’auteur. Celui-ci se trouve à la fin du livre avec l’index par noms d’auteur.

Les sessions de présentations par affichage sont identifiées, par exemple, « Session A », et est suivie des numéros 1 à 91 et « Session B » suivie des numéros 1 à 114. Multivariate Software Inc. - Creators of EQS
Introduces a Technically Sophisticated, Feature Rich
and User Friendly New Product!

EQSIRT

Item Characteristic Curves

Item Response Category Characteristic Curves - Item: 5

EQSIRT Features a Wide Variety of Item Response Theory Methods

- Dimensionality assessment
- Binary models - Rasch, 1PML, 2PL, 3PL
- Polytomous models - GRM, GPCM, NRM, RSM
- Multi-dimensional models
- Multiple group models
- All models with equality and fixed constraints
- Models with non-normal latent trait
- Models with covariates
- Models with DIF (differential item functioning)
- Equating
- Simulation with data generating modules
- Outcomes in R data object for further analysis
- R code for displaying ICC

New from the EQS team!

EQSIRT is available in MS Windows, Mac OS X, and Linux Platforms.
